Mountain Movers Engineering Co

ATTN: Eli Njaa

Dear Eli,

Just a few words to thank Mountain Movers for the professional installation of the retaining wall system at our San Diego property.

We looked at many retaining wall systems, but concluded that the system proposed by Mountain Movers made the most sense, structurally, architecturally and financially.

The installation crew were easy to work with, and executed the work in a safe manner.

The finished product looks excellent, and was completed on schedule and on budget.

Regards
